

TECHNICAL LIVE STREAM SUPPORT

**Canada Summer Student/Recent Grad Grant Position:
Amazing opportunity to gain experience working with our Virtual J platform
Contract - 16 weeks**

The Prosserman JCC's Vision & Purpose:

At our core, we believe in inspiring people to live the Jewish lives they want to live. Our dynamic team is guided by our mission: to build and sustain a caring and vibrant community hub that is welcoming to all and based on a solid foundation of Jewish values and with a strong connection to Israel.

Although our physical doors have been closed since March 16, 2020, we have launched Virtual J and created an innovative platform to keep our community engaged in exercise, learning from topical thought-leaders, participating in dynamic programs and Jewish and Israeli Culture connection and holiday celebrations. Check out <https://virtualjcc.com/>.

As our team grows, we are looking for technical personnel who can direct livestreams with our switching platforms and help protect our quality of content, so we can professionally deliver it through interactive and engaging broadcasts.

The Right Technical Stream Support:

At your core, you're a digital techie with a passion and flair for everything live streaming, video production and new technology. **You have graduated from a broadcast post-secondary program like Radio & Television Arts.** You are detail oriented and have a strong drive for results and a demonstrated positive track record in producing live streams, live stage productions, event AV production or have excellent knowledge of broadcast switching. You are able to work remotely with a fast-paced small team and a flexible schedule. You also have strong interpersonal skills and are able to connect well with our on-line guests and hosts. **Jewish culture, traditions, and a connection to Israel** are part of your DNA and evident in your passionate and friendly interactions and drive to build Jewish Community through your contributions to Virtual J. Key skills which will make you a successful candidate include:

- ✓ Understanding of broadcast, livestream and podcast technology is a must
- ✓ Strong interpersonal skills - able to help hosts and guests prepare and set up for their live-streams and trouble-shoot any issues.
- ✓ Must have used and are fluent in broadcast switching programs like **vMix, Wirecast, Livestream, Switcher, Streamyard and OBS**
- ✓ Must understand a studio environment in order to help mobile field shoots, connectivity, RTMP/Stream Key connections and maintain clean sources within a stream/show
- ✓ Must understand lighting, camera angles, camera types, audio production/connectivity
- ✓ Fluency in Final Cut/Premiere Pro or a similar editing software program to help create digital content is a huge asset (you will work closely with our video content editor)
- ✓ Adobe suites knowledge is an asset like Photoshop, After Effects and Audition
- ✓ Social media knowledge will be an asset
- ✓ Event production knowledge is helpful to understand virtual summits and conferences

How to Apply:

We welcome all applicants. Accommodations during all phases of the hire process will be made wherever possible. If you are interested in and well qualified for this exciting opportunity please submit your resume in confidence via e-mail to jaredg@prossermanjcc.com no later than June 18, 2021. **Please submit 2 examples of your live-streaming experience that you are most proud of.** *We appreciate your application, however, we will only be contacting the candidates we wish to interview.*
